

Requirement list for BRAC Bank payment gateway integration:

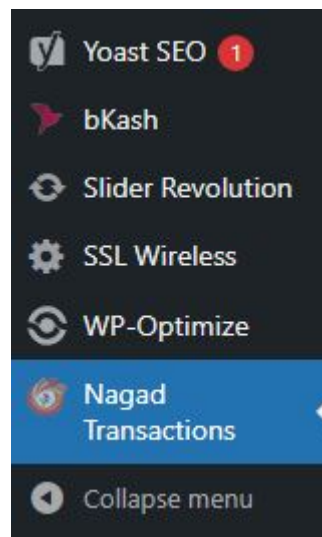

1. A plugin needs to be developed which should be discoverable in the “plugins” section of the wp application dashboard. A reference is shown below:

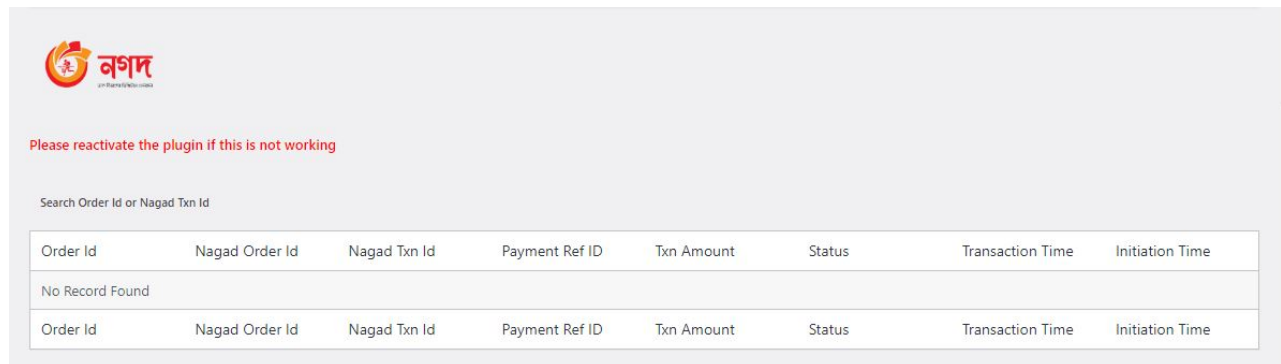

2. The payment gateway option should be displayed under WooCommerce → settings → payments(tab) where it can be managed like the other payment gateways. The following image can be considered as a reference:

3. The newly developed plugin for the payment gateway should be displayed as a separate option on the admin dashboard’s sidenav. The following image can be considered as a reference:

4. When this option (from the sidenav) is accessed, information, such as, Order id, Txn Id, Payment Ref Id, Txn Amount, Status, Transaction time will be shown. The following image can be considered as a reference:

Please reactivate the plugin if this is not working

Search Order Id or Nagad Txn Id

Order Id	Nagad Order Id	Nagad Txn Id	Payment Ref ID	Txn Amount	Status	Transaction Time	Initiation Time
No Record Found							
Order Id	Nagad Order Id	Nagad Txn Id	Payment Ref ID	Txn Amount	Status	Transaction Time	Initiation Time
